

Xypoint® Reference Network

Connectivity across networks

Take advantage of connectivity across networks to expand geographic coverage and speed up location fixes. TeleCommunication Systems, Inc. (TCS) offers Xypoint® Reference Network to provide the most comprehensive satellite data service in the industry. By accessing a constellation of satellites, Xypoint Reference Network delivers global geographic data twenty-four hours a day, seven days a week for location servers that use Assisted Global Positioning System (A-GPS).

Your Established Partner

TeleCommunication Systems, Inc. (TCS) (NASDAQ: TSYS) is a world leader in high availability and secure mobile communication technology. TCS infrastructure forms the foundation for market leading solutions in E9-1-1, text messaging, commercial location and deployable wireless communications. TCS is at the forefront of new mobile cloud computing services providing wireless applications for navigation, hyper-local search, asset tracking, social applications and telematics. Millions of consumers around the world use TCS wireless apps as a fundamental part of their daily lives. Federal government agencies depend on TCS' cyber security expertise, professional services, and highly secure deployable satellite solutions for mission-critical communications. Headquartered in Annapolis, MD, TCS maintains technical, service and sales offices around the world. To learn more about emerging and innovative wireless technologies, visit www.telecomsys.com.

Benefits of Xypoint Reference Network

Xypoint Reference Network connects to A-GPS server systems across the industry. Its worldwide receiver network provides data from the entire GPS constellation, which enables delivery of data to devices anywhere on the planet.

Besides providing the highest quality service in the industry, Xypoint Reference Network offers:

- The industry's widest range of data elements.
- Flexible data feed to meet any operator's need: Each field can be individually customized.

- Long-term ephemeris data.
- Technical support provided 24/7 by the TCS global Network Operations Center (NOC).
- Uptime/Availability of 99.999%.
- TL 9000 certification, which verifies the quality and reliability of the products and services offered by TCS.
